PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building, scaling, and maintaining features across commercial B2B SaaS suites in ERP, CRM, Invoicing, and HR management. Proficient in **TypeScript, React.js, Next.js, Node.js, Express.js, MongoDB, and PostgreSQL**, contributing to high-traffic production codebases, data-driven workflows, REST APIs, and role-based access security models.

WORK EXPERIENCES

Full Stack Developer | Full-time — Apr 2024 - Nov 2026

Techsunset — *Remote · Bengaluru,India*

- Contributed to the development and enhancement of **6 commercial SaaS products** across CRM, HRMS, Accounting, Inventory, Project Management, and Education domains.
- Developed and integrated RESTful APIs using Node.js and Express.js, supporting **6 business applications** with reusable backend functionality.
- Built responsive dashboards and reusable UI components using React.js and Next.js, implementing pagination, dynamic search, filtering, and form validation.
- Developed multiple CRUD modules and optimized MongoDB queries for **6 different business domains**, improving data management and application performance.
- Implemented frontend-backend integration, authentication, authorization, request validation, and standardized error handling using TypeScript and JavaScript.
- Collaborated with cross-functional development teams using Git and Agile workflows, contributing to continuous feature delivery across **6 SaaS applications**.

Technologies / Skills Used : *React, Next.js, Node.js, Express.js, JWT, MongoDB, TypeScript*

PROJECTS

Customer Relationship Management System | Website

Key responsibilities

- Developed **responsive CRM dashboard interfaces** using React.js and Next.js.
- Implemented customer listing, details, and profile management functionality.
- Created lead management modules to track and manage potential customers.
- Implemented dynamic search, filtering, and data management functionality.
- Integrated frontend components with **RESTful backend APIs**.
- Developed **CRUD APIs** using Node.js and Express.js.

Technologies / Tools Used : *React, Express, Node.js, MongoDB, Tailwind CSS, Nextjs*

Accounting & Invoicing Management System | Website

- Developed **financial dashboards** for monitoring invoices, payments, expenses, and business summaries.
- Implemented invoice creation, editing, listing, and management functionality.
- Built customer, vendor, and expense management modules.
- Developed **RESTful APIs** for invoice, payment, and financial data management.
- Implemented GST summaries and financial reporting functionality.
- Integrated **MongoDB** for managing invoices, transactions, customers, and financial records.

Technologies / Tools Used : *React, Express, Node.js, MongoDB, Tailwind CSS, nextjs*

SKILLS

Databases :	MongoDB, PostgreSQL, Prisma, MySQL
Frameworks & Libraries :	React.js, Next.js, Redux Toolkit, Tailwind CSS, HTML5, CSS3, React, Node.js, Express
Languages :	English, Hindi
Programming Languages :	JavaScript (ES6+), TypeScript, Python, JavaScript
Soft Skills :	Communication, Problem Solving, Teamwork, Critical Thinking, Time Management
Tools & Platforms :	Git, GitHub, Postman, Docker, CI/CD Pipelines, CI/CD, GitHub Actions, Kubernetes, Jira

EDUCATIONS

Radha Govind University, Ramgarh | Ramgarh, Jharkhand, India — 2021 - 2024

Bachelor's of Arts — *CGPA : 7.09/10*

Wap Institute | Electronic City, Bengaluru, Karnataka, India — 2022 - 2023

Mern Stack Course — *Grade : A*
